

# Safe Water Starts With You

Logline: A short PSA about humanity's negligence towards keeping waters clean and what we can do to fix that.

Goal: Show what we can all do to keep water safe.

# The Plan

- Shots of beautiful waters
- Shots of polluted waters
- Shots of people polluting
- Shots of people anti-polluting
- Quiet style
- Soft piano music

It is a great injustice to pollute water. It affects your fellow man and the natural environment.

People use water for many things (drinking, fishing, etc.). We should all take better care of it.

Thank you for your consideration.
